

# DOUXO<sup>S3</sup> PYO

## PYO Pads for dogs and cats

DOUXO<sup>®</sup> S3 PYO Pads are thick, soft, 100% cotton pads for treatment of infected areas or areas that need antiseptic cleansing.

DOUXO<sup>®</sup> S3 PYO pads are thick cotton pads soaked in an emulsion that provides deep cleansing, with ingredients to fight bacterial and fungal skin infections responsive to chlorhexidine. They also contain OPHYTRIUM<sup>™</sup> to help support the three skin barriers.

After using DOUXO<sup>®</sup> S3 PYO pads on dogs, there was a 76.2% decrease in *Malassezia* after 7 days and a >70% decrease in bacteria after 14 days.<sup>1</sup>

### USAGE:

Use once a day for 7–14 days or as directed by your veterinarian. Ideal for small or difficult to reach areas.

### KEY INGREDIENTS:

**Chlorhexidine Gluconate 3%** is an antibacterial and antifungal agent.

**OPHYTRIUM<sup>™</sup> 0.5%** has simultaneous threefold action on the physical, microbiological and immunological skin barriers.

### SITUATIONS (OR AREAS) THAT MAY BENEFIT FROM DOUXO<sup>®</sup> S3 PYO PADS:

Antiseptic Cleansing	Atopic Dermatitis
Bacterial Skin Infections	Ear Crusts
Facial Folds	Foot Pads*
<i>Malassezia</i> Overgrowth	Pyoderma
Saliva Stains	Skin Folds
Tear Stains	
Skin Yeast Infections	

Chlorhexidine can cause rare, but serious allergic reactions in humans. If you experience allergy symptoms, discontinue use immediately and seek medical treatment.

\*Do not use DOUXO<sup>®</sup> S3 PYO Pads between the toes of cats.
